Apple Media Services:
Customer Device History - Push Notification Authorization

April 2019

File name

Customer Device History - Push Notification Authorization.csv

File description

This file contains information about the devices that are associated with the user's Apple ID and registered to receive push notifications.

Why Apple keeps this information

Apple retains this information in order to ensure push notifications are sent only to authorized devices , to debug performance issues impacting push notifications, and to ensure the integrity of transactions and user facing or entered content.

Field Name	Details
Apple ID Number	Apple account identifying number
Device Identifier	An identifier for the registered device
Device Name	The user-defined device name
Device Serial Number	The Apple device serial number
Associated Date	The date and time on which the user authorized the device
Latest Device Details	The most recent information about the device and the device software
